

[NEEDS EDIT] How to Create a No-IP Dynamic DNS Hostname

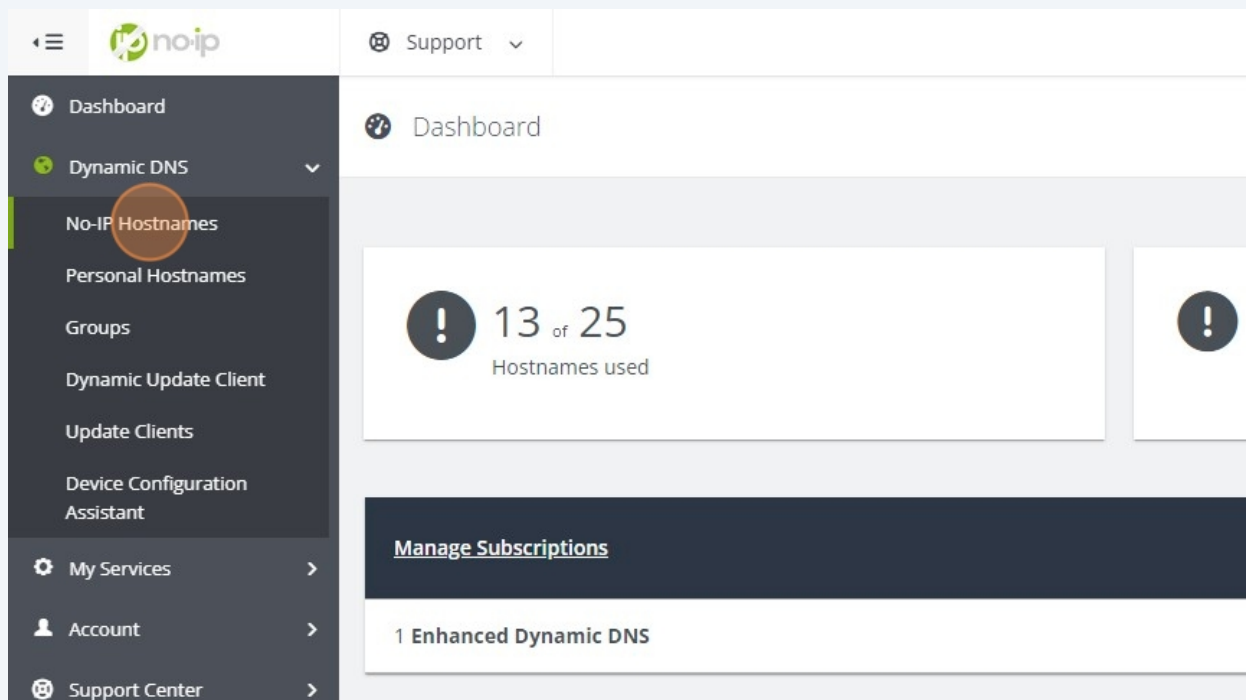

1 Navigate to <https://my.noip.com/>

2 Click "Dynamic DNS"

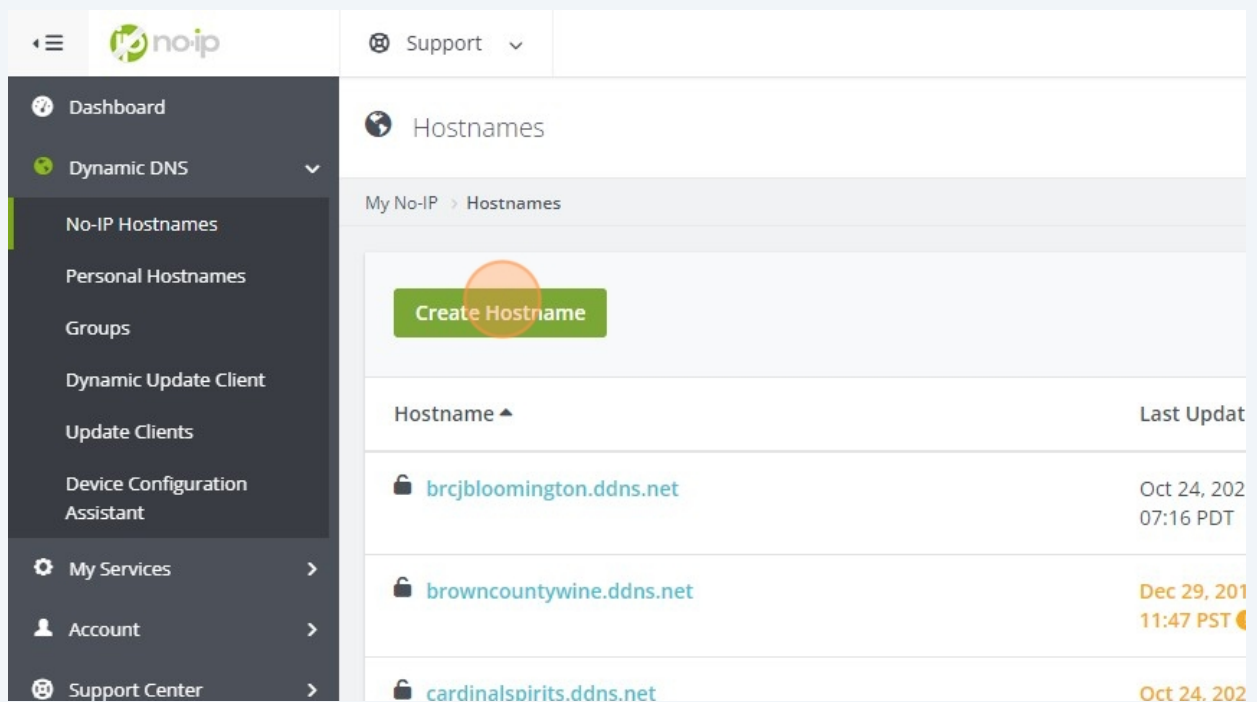

3 Click "No-IP Hostnames"

The screenshot shows the No-IP dashboard. On the left, a dark sidebar menu contains the following items: Dashboard, Dynamic DNS (with a dropdown arrow), No-IP Hostnames (highlighted with an orange circle), Personal Hostnames, Groups, Dynamic Update Client, Update Clients, Device Configuration Assistant, My Services (with a right arrow), Account (with a right arrow), and Support Center (with a right arrow). The main content area has a header with the No-IP logo and a 'Support' dropdown. Below the header, the page title is 'Dashboard'. A large white box displays '13 of 25 Hostnames used' with an exclamation mark icon. To the right, another box shows '1 Enhanced Dynamic DNS' under the heading 'Manage Subscriptions'.

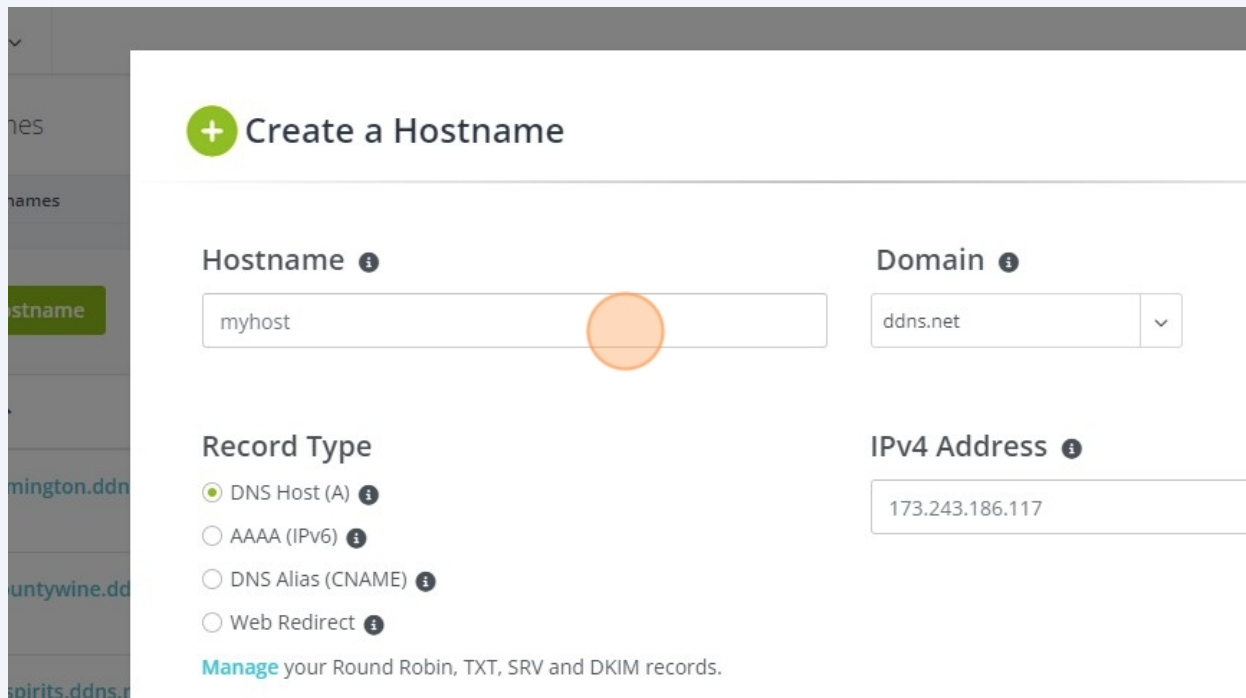

4 Click "Create Hostname"

The screenshot shows the No-IP 'Hostnames' page. The sidebar menu is the same as in the previous screenshot, with 'No-IP Hostnames' highlighted. The main content area has a header with the No-IP logo and a 'Support' dropdown. Below the header, the page title is 'Hostnames'. A breadcrumb trail shows 'My No-IP > Hostnames'. A green 'Create Hostname' button is highlighted with an orange circle. Below the button is a table with two columns: 'Hostname' and 'Last Update'.

Hostname ▲	Last Update
 brcjbloomington.ddns.net	Oct 24, 2021 07:16 PDT
 browncountywine.ddns.net	Dec 29, 2011 11:47 PST
 cardinalspirits.ddns.net	Oct 24, 2021

5 Click the "myhost" field.

The screenshot shows a web interface for creating a hostname. The form is titled '+ Create a Hostname'. It contains four main sections: 'Hostname', 'Domain', 'Record Type', and 'IPv4 Address'. The 'Hostname' field contains the text 'myhost' and is highlighted with an orange circle. The 'Domain' field contains 'ddns.net'. The 'Record Type' section has four radio button options: 'DNS Host (A)' (selected), 'AAAA (IPv6)', 'DNS Alias (CNAME)', and 'Web Redirect'. The 'IPv4 Address' field contains '173.243.186.117'. At the bottom, there is a link that says 'Manage your Round Robin, TXT, SRV and DKIM records.'
