

Microsoft EPM: Approving user requests

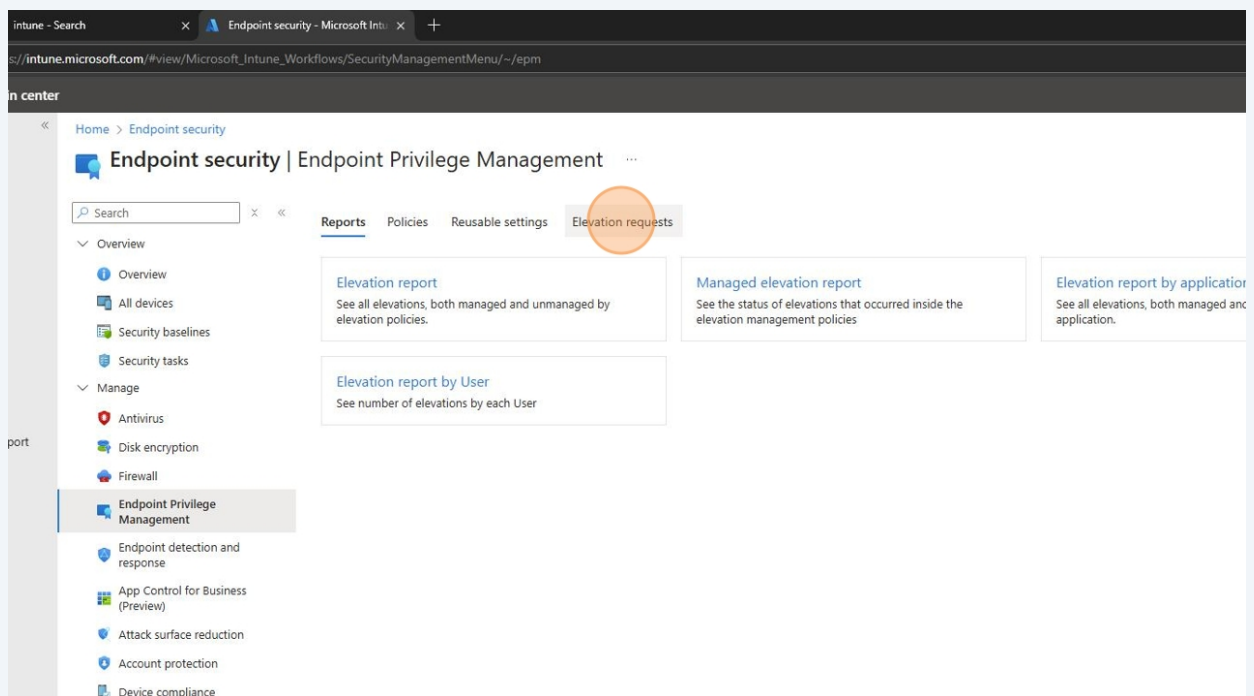

1 sign into Intune and Click "Endpoint security"

2 Click "Endpoint Privilege Management "

3 Click "Elevation requests"

4 Click the requested app

The screenshot shows the Microsoft Intune admin center interface. The left sidebar contains navigation links: Home, Dashboard, All services, Devices, Apps, Endpoint security, Reports, Users, Groups, Tenant administration, and Troubleshooting + support. The main content area is titled 'Endpoint security | Endpoint Privilege Management'. It includes tabs for Reports, Policies, Reusable settings, and Elevation requests. The Elevation requests tab is active, showing a table of requests. The first row is highlighted with an orange circle, showing the file 'Reader_en_install.exe' from Adobe Inc., requested by user 'joshua@ir'. The table has columns for File, Publisher, and Username.

File	Publisher	Username
Reader_en_install.exe	Adobe Inc.	joshua@ir
Reader_en_install.exe	Adobe Inc.	joshua@ir

5 Click approve or deny

The screenshot shows the details of an Elevation request for the file 'Reader_en_install.exe'. The page displays the following information:

- Approval expiration: 02/04/25, 1:47 PM
- Admin's reason
- File information**
- File path: C:\Users\test\Downloads
- Hash value: 0B7E646DE9256A16F7D5D00613429A859DB7B1FB8324
- Version: 2.0.0.790
- File description: Adobe Download Manager
- Product name: Adobe Download Manager
- Internal name: Adobe Download Manager

At the bottom of the details pane, there are two buttons: 'Approve' (highlighted with an orange circle) and 'Deny'.

6 input the reason and select yes
