

Granular file restore in altaro -- EDIT

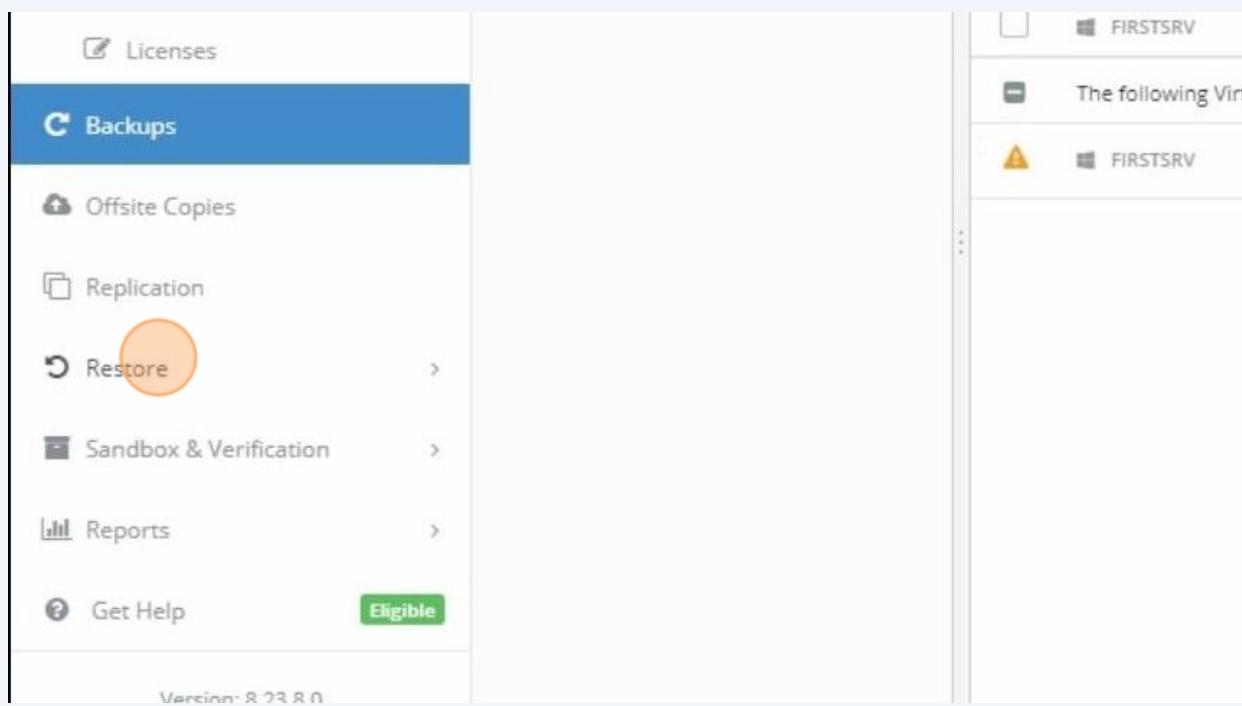

- 1 Open Altaro VM Backup

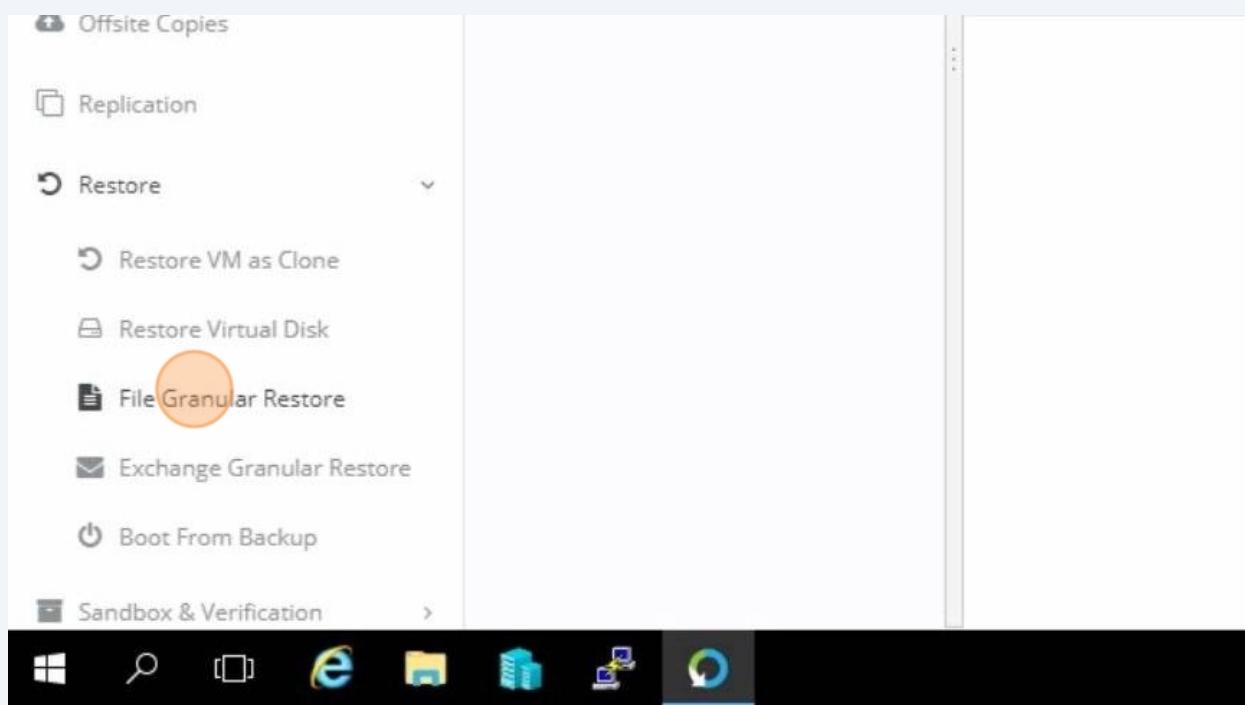

2 Login

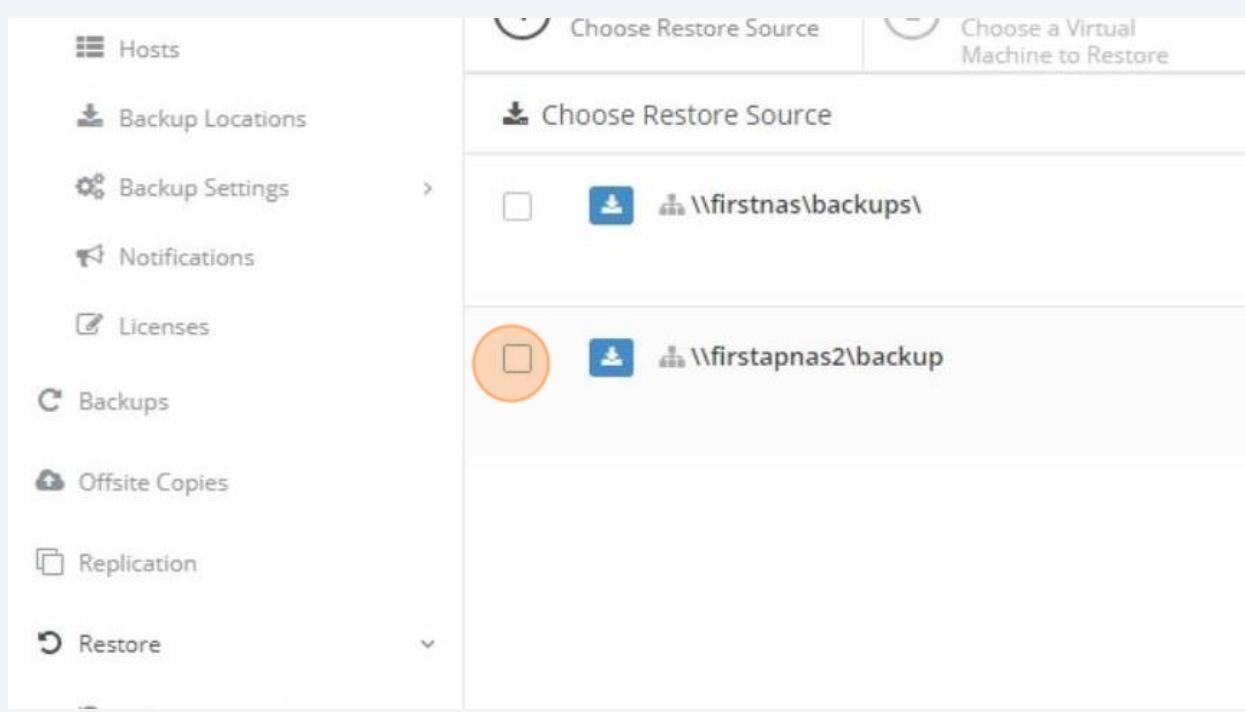

3 Click "Restore"

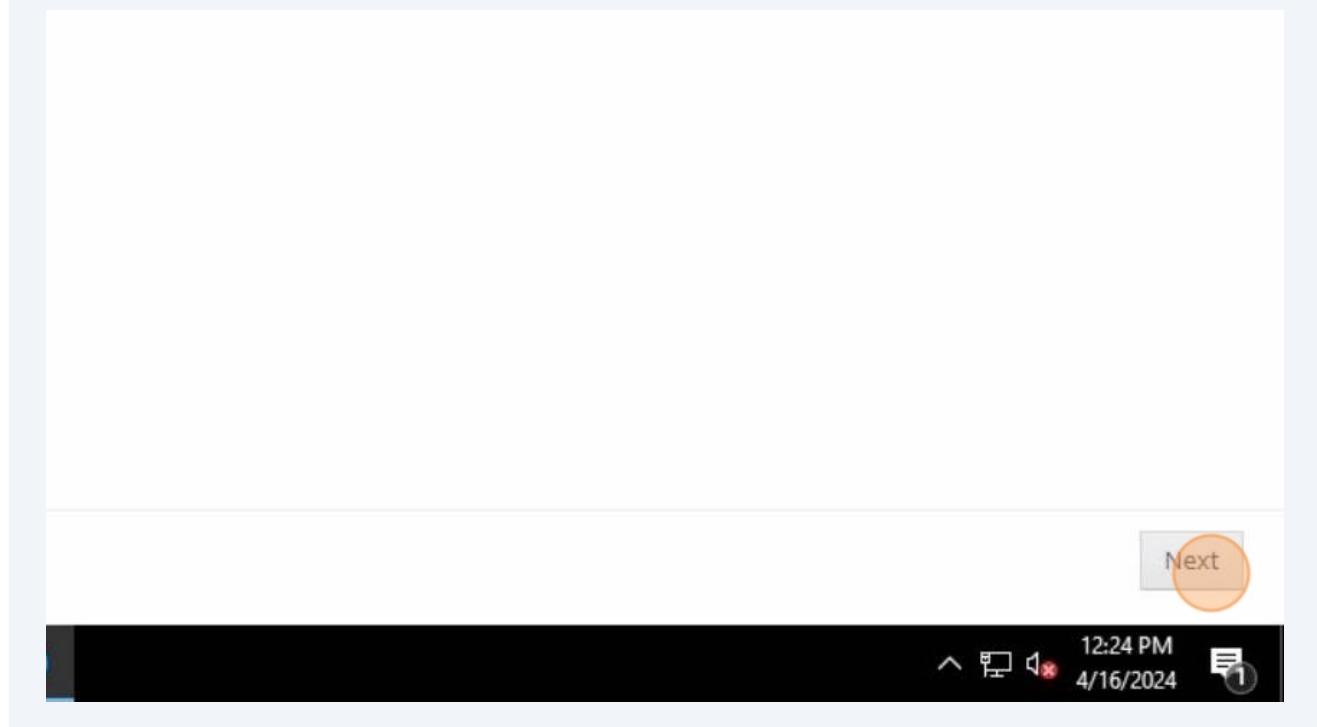

4 Click "File Granular Restore"

5 Select the backup source

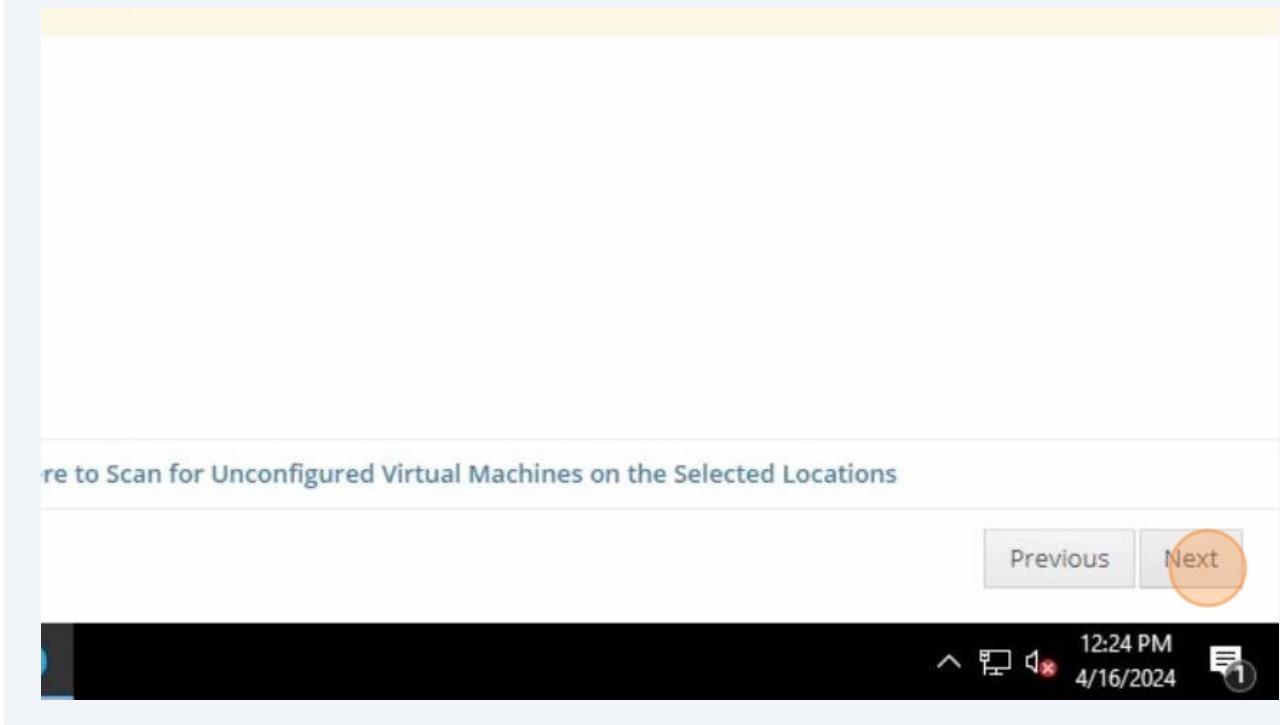

6 Click "Next"

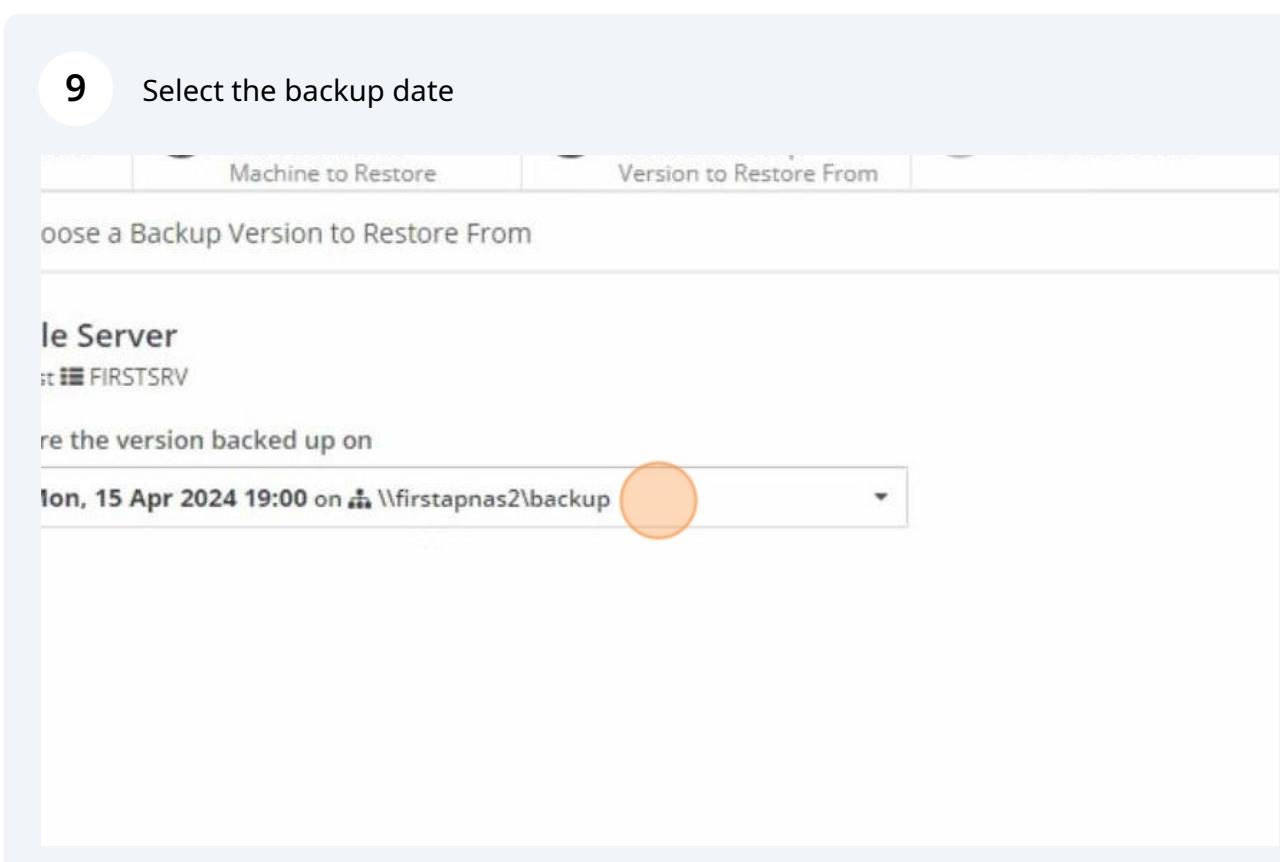

7 Select the source of the file

A screenshot of a software application window. On the left side, there is a vertical sidebar with several options: "Backup Locations", "Backup Settings", "Notifications", "Licenses", "Backups", "Offsite Copies", "Replication", "Restore", and "Restore VM as Clone". The "Restore" option is currently selected, indicated by a downward arrow. To the right of the sidebar, there is a main panel. At the top of this panel, there is a header that says "Choose a Virtual Machine to Restore From". Below this header is a search bar with the placeholder text "Search for Virtual Machines or Hosts...". Underneath the search bar, there are two entries: "Domain Controller" and "File Server". The "File Server" entry is highlighted with an orange circle. It also includes the text "on Host FIRSTSRV".

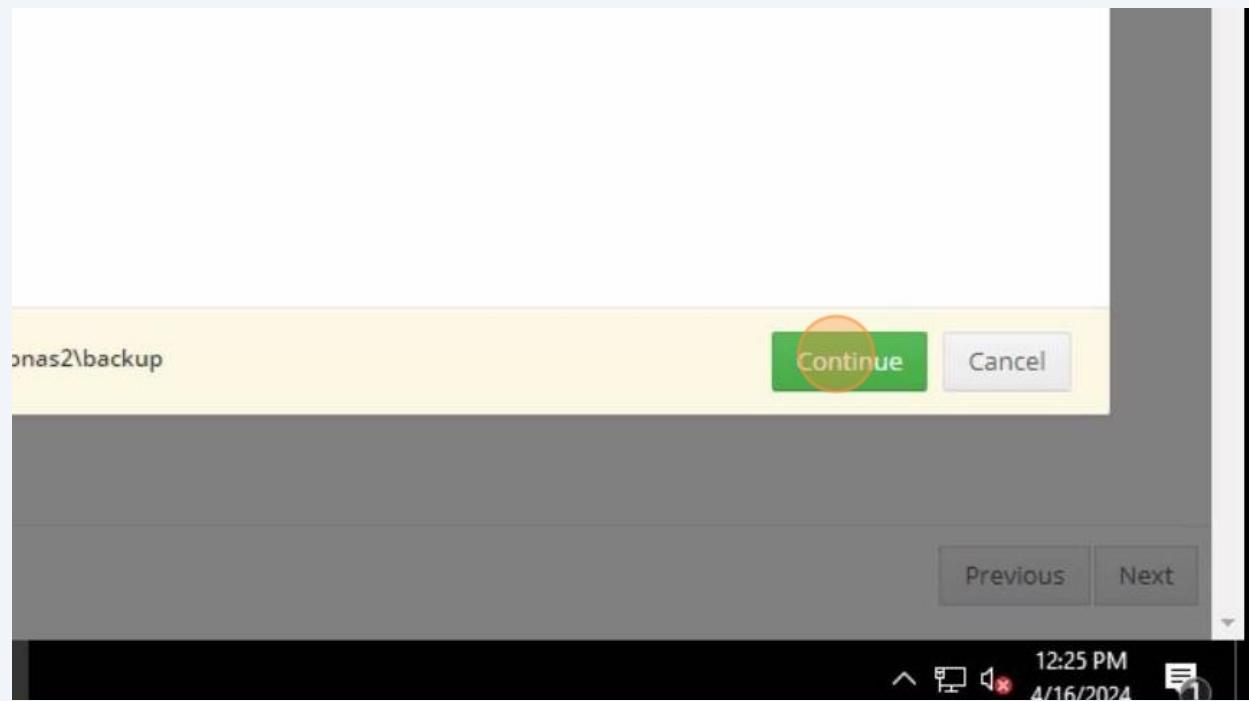

8 Click "Next"

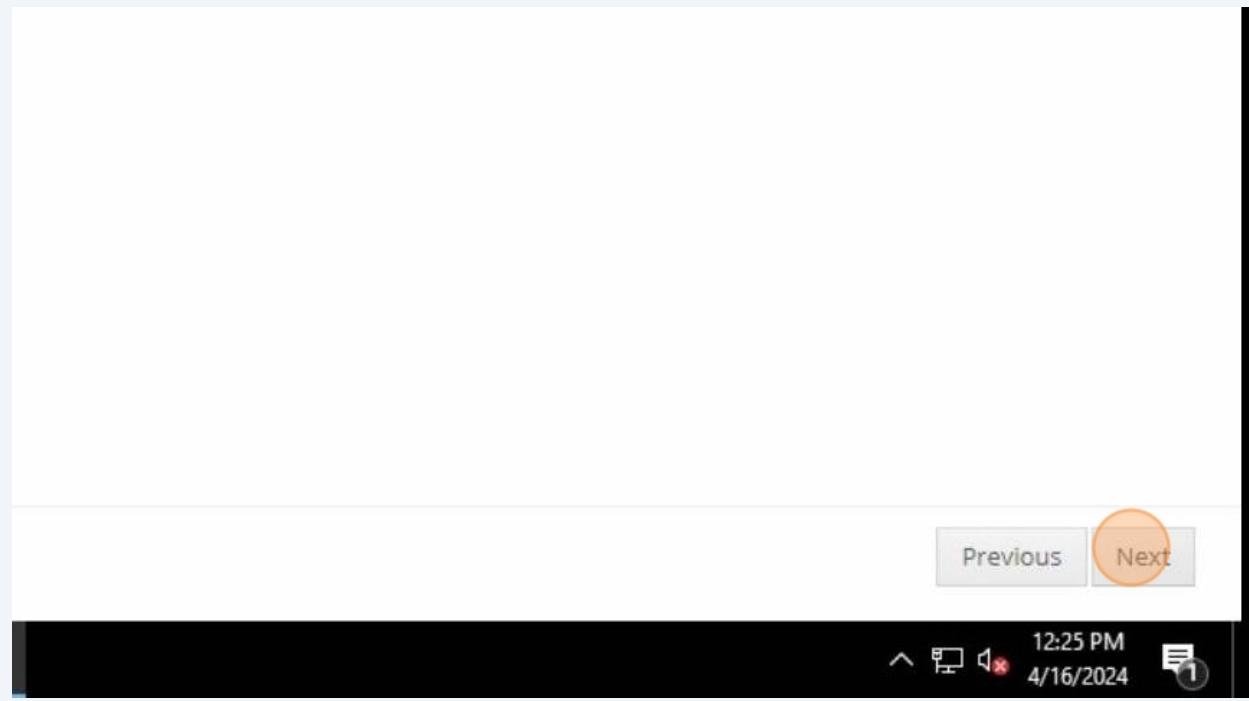

9 Select the backup date

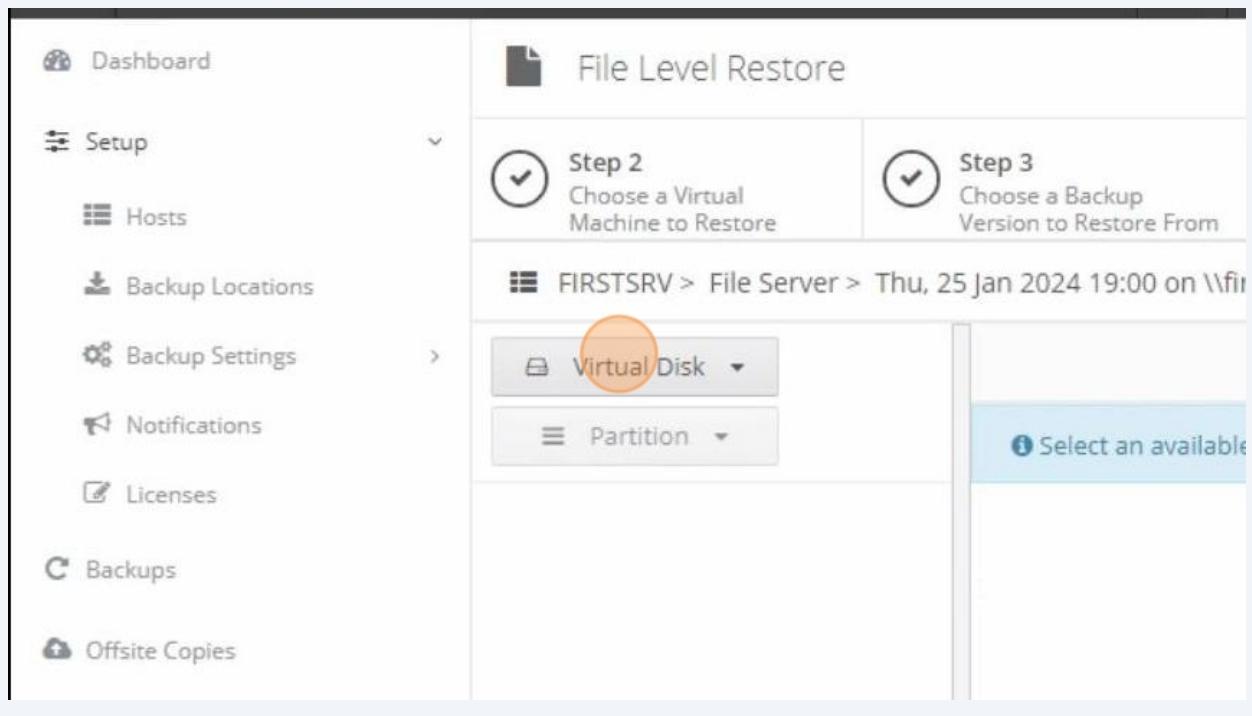

10 Click "Continue"

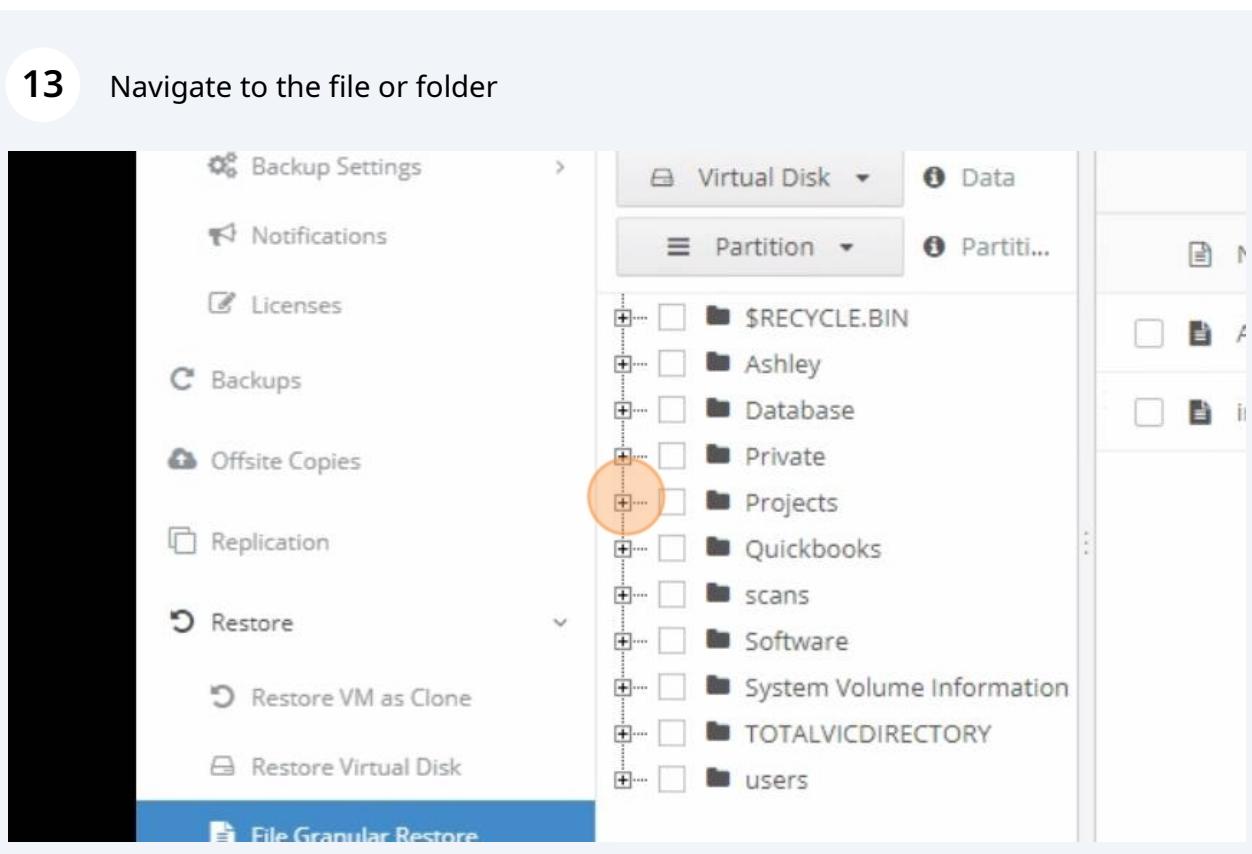

11 Click "Next"

12 Select Disk and Partition where the file is located

13 Navigate to the file or folder

14 Select the file or folder

FIRSTSRV > File Server > Thu, 25 Jan 2024 19:00 on \\firstapnas2\backup > Partition 2
